

TEN INSIGHTS

FROM PSYCHIC JANE DOHERTY

“Awakening the Mystic Gift”

1. EVERYONE HAS A PURPOSE.

We have the responsibility to discover our uniqueness and to develop our soul to its fullest potential. We are here to learn how to master our emotions and become a more perfected soul by eliminating our ego, greed and prejudices. Through self-awareness, psychic guidance, inner knowledge and observation, you can achieve your purpose.

2. THERE IS A DESTINY, BUT WE ALSO HAVE FREE WILL.

We attract the circumstances of our life by our thoughts, intentions, actions, soul lessons, and goals, as well as our past and present karma, which we then call destiny. However, those circumstances are controlled by our actions, which we call free will. Whether we act or not, we exercise our free will which ultimately creates the rewards or consequences of our life. If we accept fate as unchangeable and take no actions or make no decisions, we still affect destiny. Consequently, no decision or action is still a decision-just a passive one.

3. PSYCHIC ABILITY COULD BE THE KEY FORCE IN CREATING A BETTER LIFE.

God intended for us to stay connected, so we could be guided in making our decisions. However, we often ignore signs or guidance or dismiss them as coincidences. Psychic ability is a tool God gave us and the language spoken on the other side. Therefore, it offers a means of communication between the two worlds, including a personal path to God.

4. FIND THE PSYCHIC WITHIN YOU.

A large percentage of the population has experienced unexplainable paranormal moments. Most of those who have had an experience claim it changed their life. As a result, they conclude there is much more to life than the physical, tangible world. You, too, have the potential to experience a psychic moment.

5. BECOME A CHILD AGAIN.

We are more psychically aware as children, because we have a greater trust in those around us and our experiences are more spontaneous. However, those trails diminish when we get older and so does our ability to act on hunches or gut feelings. In order to become sensitive as an adult to paranormal activity, we have to consciously foster those traits.

6. LISTEN FOR GUIDANCE.

There are subtle messages and meaningful coincidences in life to prod your memories or to stimulate you to reflect on those memories. By taking time for these quiet moments of reflection, you open yourself to receive guidance. Your guides can coach you to stay on your path or to take a different path. This guidance can make a difference between a happy, fulfilling life or a life with many challenges to overcome.

7. LOVE AND CONFIDENCE WILL HELP YOU DEVELOP PSYCHICALLY.

Your psychic ability can be developed more quickly if you increase your self-love and self-confidence. When you possess both, you are able to decipher guidance from the conflicting thoughts that emerge in your mind. Self-doubt, fear, inferior ego or the pre-conditioned voices of society all deter you from recognizing your true guidance.

8. A SIGN OF PSYCHIC POTENTIAL: THE MYSTIC CROSS.

According to palm readers, there are unusual markings on the palms of some people's hands. If you have a mystic cross in the palm of your hand, it could indicate you have strong psychic potential.

9. A PARANORMAL EXPERIENCE IS A WAY FOR GOD TO GET YOUR ATTENTION.

The psychic experience teaches you there is more to life than just the physical world. There are numerous examples of these occurrences in the Bible, accepted during ancient times as common ability. Would God have permitted these experiences on an almost daily basis during that time and not allow them to occur during modern times? Paranormal incidents demonstrate there is a God trying to guide us.

10. GUIDES NEVER STOP TRYING TO REACH US.

We have to want the guidance, ask for it, and then pay attention to it. Understanding this rule is one of the secrets for creating a better life. Either we make choices and act upon those choices or our lives are determined by chance, which we accept as our destiny.
